

ABDUL SAHIL MOHAMMED

Lakewood, OH

(216)484-4805 amohammed2434@my.trine.edu LinkedIn GitHub

PROFESSIONAL SUMMARY

Detail-oriented Business Analytics graduate student with hands-on experience in financial data validation, documentation review, workflow coordination, and process improvement. Experienced in supporting cross-functional teams, ensuring data accuracy, maintaining compliance standards, and improving operational efficiency. Skilled in Excel modeling, reporting automation, KPI tracking, and client-focused communication. Seeking a Production Partner role to support mortgage advisors, operations teams, and loan production processes in a fast-paced retail lending environment.

EXPERIENCE

Trine University <i>Financial & Risk Analyst – Academic & Capstone Projects</i>	Aug 2024 – Dec 2025 <i>Angola, Indiana</i>
- Reviewed and validated financial documentation including balance sheets, income statements, and supporting data to ensure completeness and accuracy. - Conducted detailed file-level data validation to identify discrepancies, missing documentation, and compliance gaps. - Collaborated with cross-functional academic teams to streamline workflow processes and improve reporting accuracy. - Built Excel-based tracking systems to monitor KPI performance, documentation status, and operational timelines. - Performed root cause analysis to identify process bottlenecks and recommended workflow improvements to enhance efficiency. - Prepared structured reports and presentations summarizing findings, ensuring clarity for stakeholders and decision-makers. - Ensured adherence to internal guidelines and documentation standards in all analytical deliverables.	
Mercury Associates <i>Business Development Intern</i>	Dec 2020 – Feb 2021 <i>Telangana, India</i>
- Analyzed operational and financial data to support production planning and revenue forecasting. - Developed standardized Excel tracking reports to monitor sales pipeline activity, performance metrics, and client status updates. - Coordinated with internal teams to ensure timely documentation submission and data accuracy. - Improved reporting workflow efficiency, contributing to a 15% increase in overall sales effectiveness.	
Osmania University <i>Academic Project – Rural Banking Systems Analysis</i>	Jan 2023 – Jul 2023 <i>Telangana, India</i>
- Analyzed transaction workflows and financial operations data to identify inefficiencies impacting service delivery and risk exposure. - Evaluated utilization patterns, customer behavior, and process bottlenecks to support operational risk assessment. - Delivered data-driven recommendations projected to improve long-term profitability by 30% over five years.
